

<Instantly convert scanned documents to editable files>

# e-BRIDGE Re-Rite

## Automated intelligence for the office

### e-BRIDGE RE-RITE™ converts to:

- \* PDF (Adobe Acrobat®)
- \* DOC/RTF (Microsoft Word®)
- \* WPD (Corel® WordPerfect®)
- \* PPT (Microsoft PowerPoint®)^
- \* EXCEL/CSV (Microsoft Excel®)
- \* HTML (Web pages)
- \* eBook (Microsoft Reader®)
- \* TABULAR DATA
- \* TEXT (Formatted/Unformatted)
- \* Received Fax to PDF®

... and delivers these searchable or editable digital files to either a network drive, FTP account or your email inbox.

powered by Redmap

### Office Automation software

Convert paper documents to electronic files, like Word®, Excel® or PDF® from your Toshiba e-STUDIO Multi-Function Product (MFP).

The advanced scanning features of Toshiba MFPs make this a reality, and it all happens with the touch of a single button. This means the entire process is completely automated allowing your employees to begin scanning immediately with virtually no learning curve.

Here's how it works ... documents are placed into the document feeder on your Toshiba e-STUDIO MFP, the user selects a template and moments later the files arrive at your desktop via email or a selected network drive.

No user intervention is required, just open and begin editing with your favourite desktop application. As said, these include Microsoft Word®, Excel®, Adobe® PDF or even HTML web pages, to name a few.

Best of all, e-BRIDGE RE-RITE requires just one license per server .... unlimited uses for price of one!
